

Custom, Inspired Saunas

CIANCIO ENGINEERING

CUSTOM BUILDING SOLUTIONS

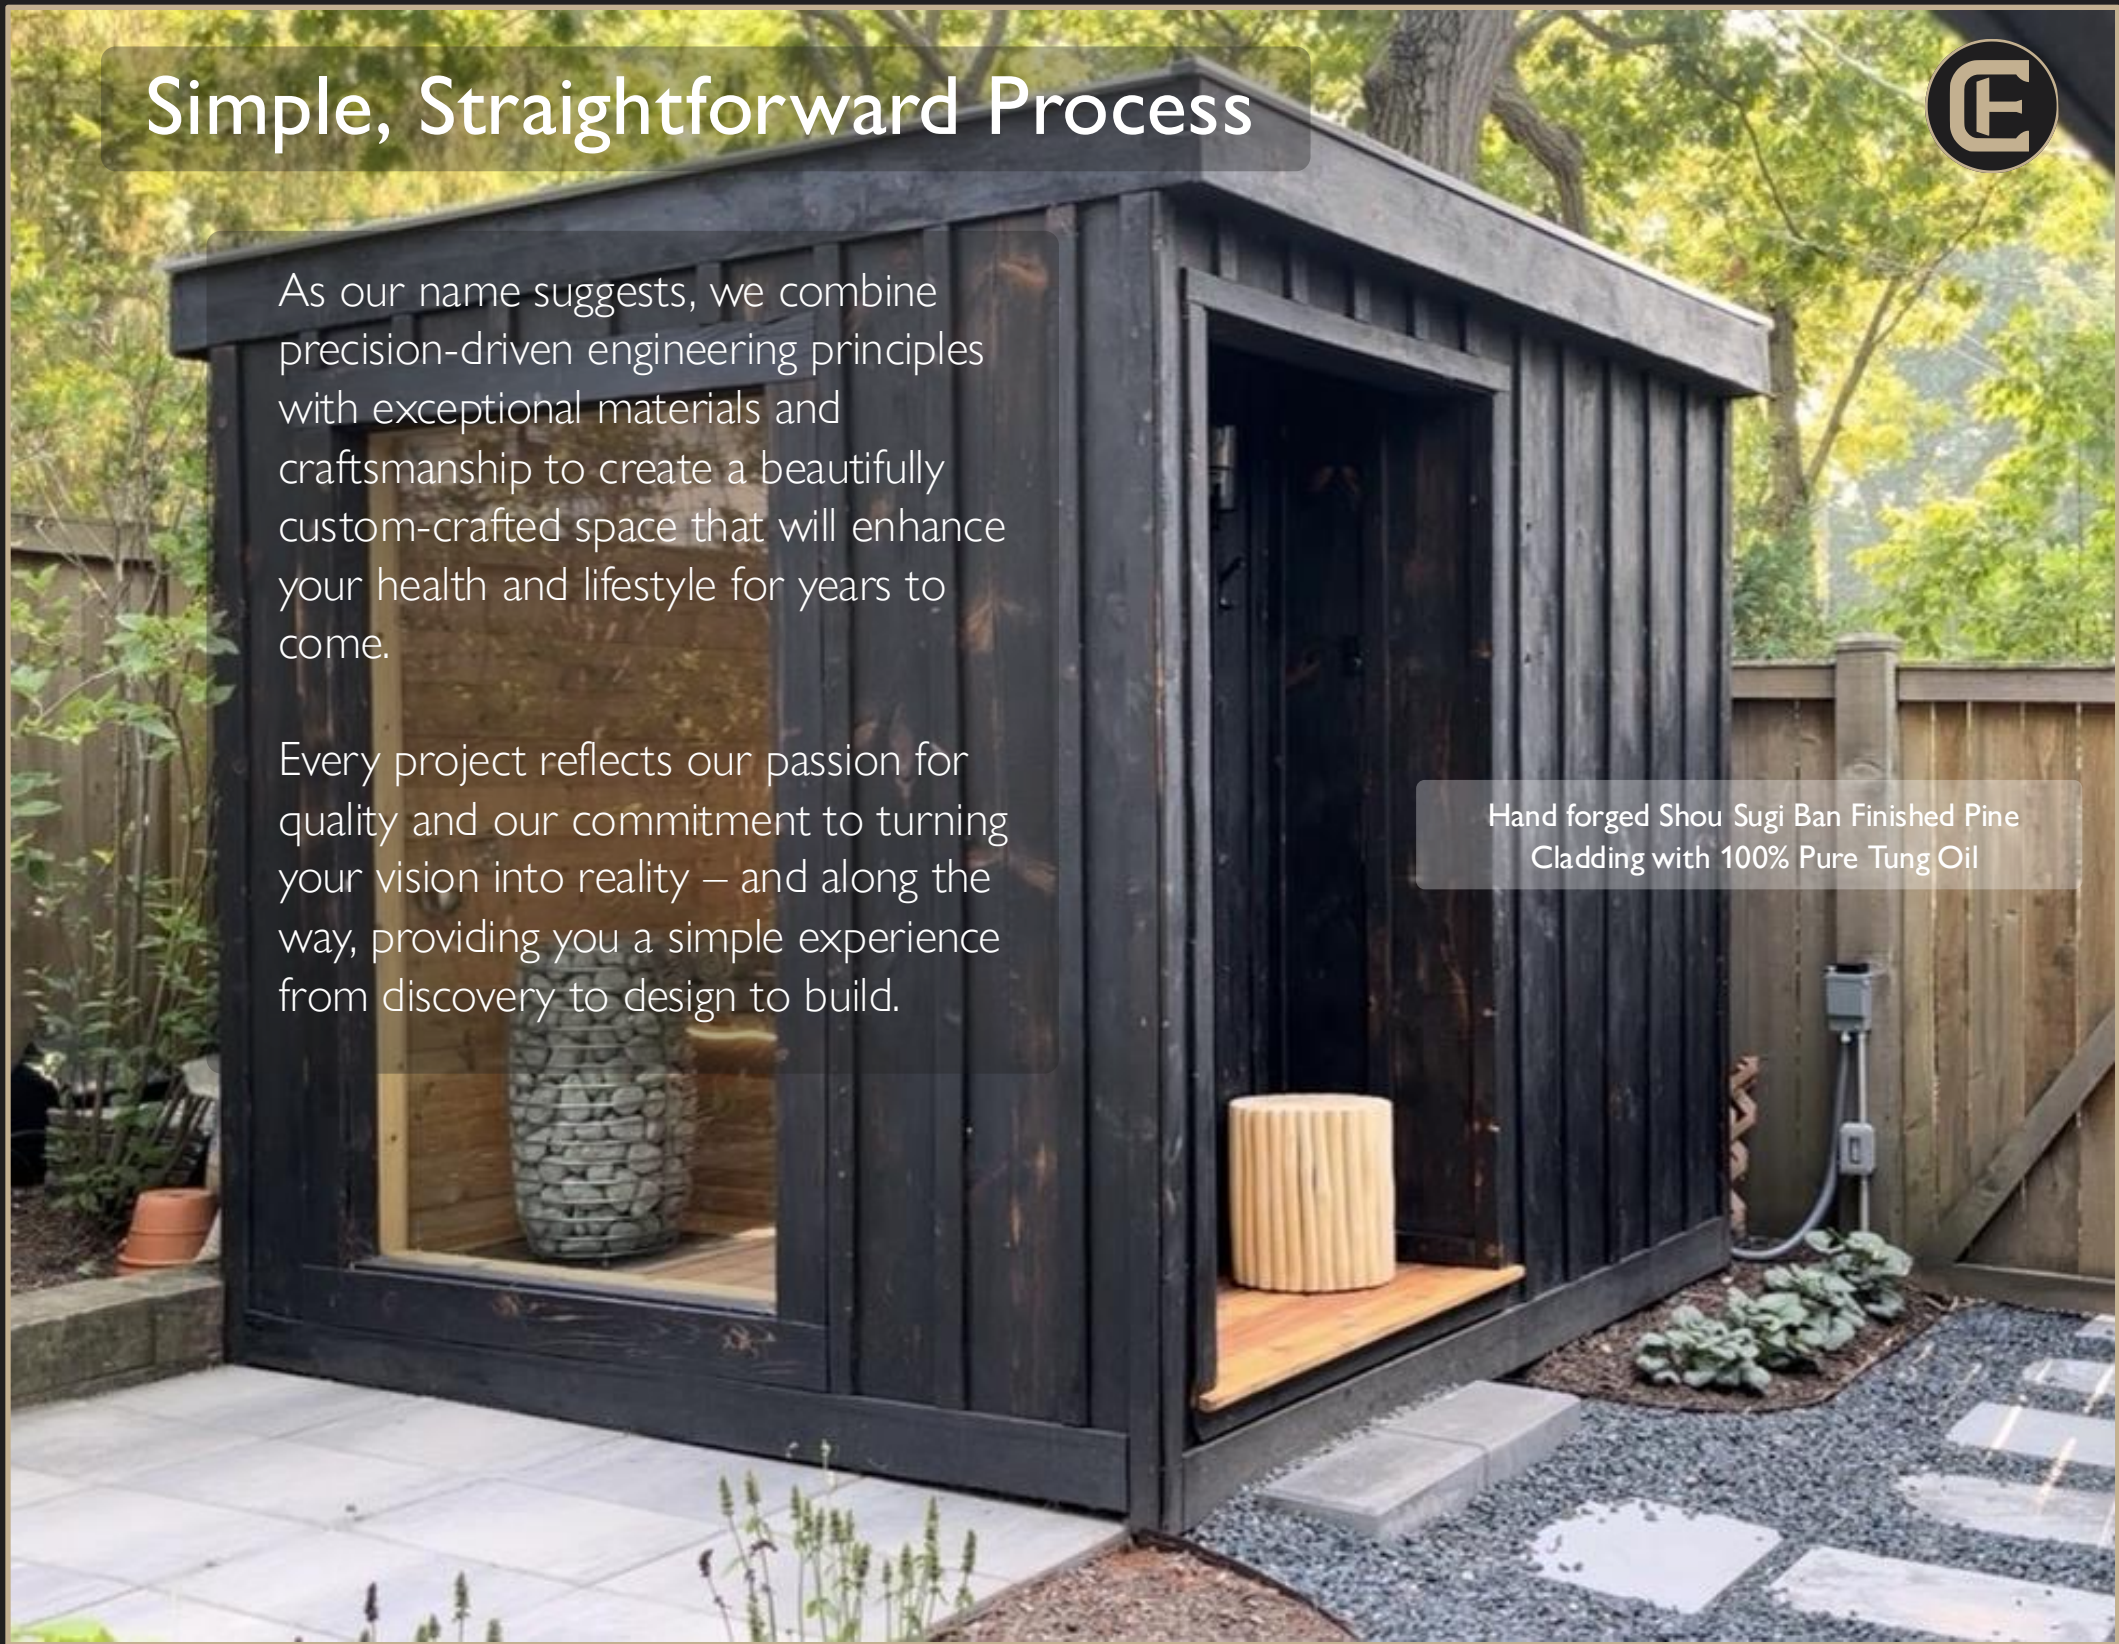

Simple, Straightforward Process

As our name suggests, we combine precision-driven engineering principles with exceptional materials and craftsmanship to create a beautifully custom-crafted space that will enhance your health and lifestyle for years to come.

Every project reflects our passion for quality and our commitment to turning your vision into reality – and along the way, providing you a simple experience from discovery to design to build.

Hand forged Shou Sugi Ban Finished Pine
Cladding with 100% Pure Tung Oil

1: Discovery Phase

Your sauna journey starts with a free discovery consultation, enabling us to jointly explore the vision of your project and ignite your imagination about what can be achieved. In this phase we create a broad discovery brief addressing key questions around Style, Size and the Environment for your sauna.

Discovery Brief

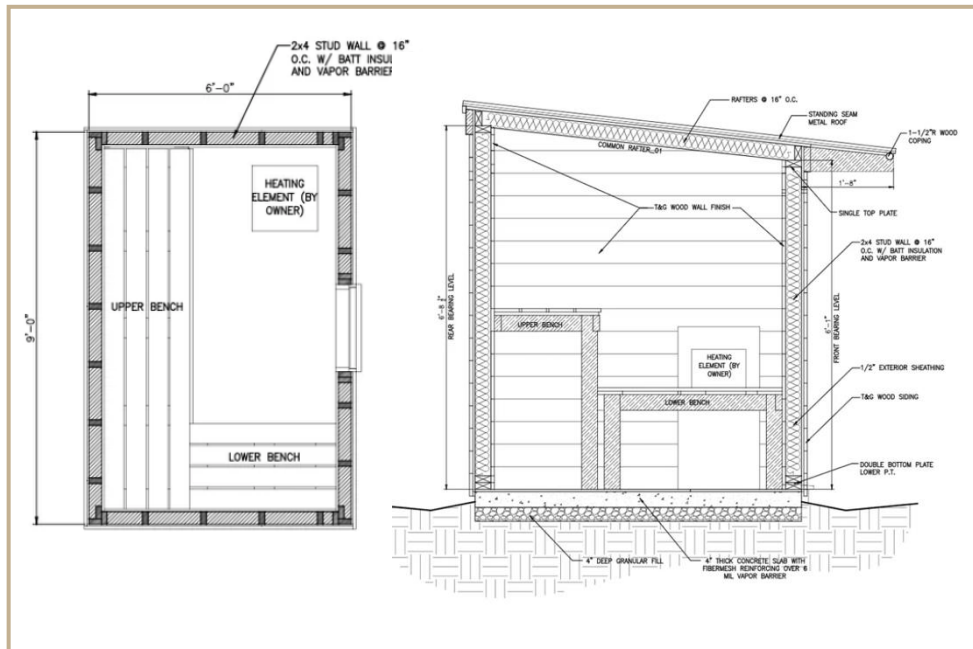

- 2-4 Person, Modern Shed
- Seamless Integration with Surroundings
- Cedar Interior & Exterior Cladding
- Electric Heat
- Blending Color Palette

2: Design Phase

Once we have a mutually agreed upon discovery brief, we'll move into the design and materials planning of your custom sauna. Here, we create a comprehensive project plan, materials schedule and detailed quote that reflects your vision and budget.

Floor planning & section detail renderings

During the design process we'll work with you to select finishes and features that best meet your aesthetics and budget.

- Wood types
- Heat source (electric or wood burning)
- Controls, lighting and sound options
- Windows (size & glass type)
- Door (size & design)
- Seating
- Accessories

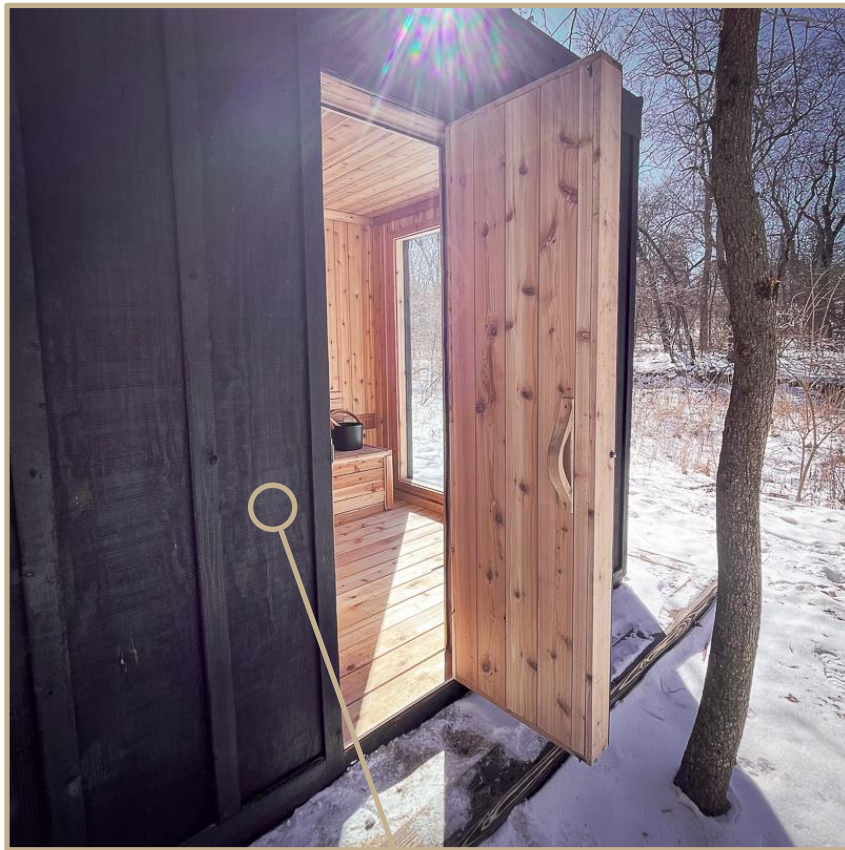

- White Cedar Interior
- HUUM Hive Sauna Heater
- Unique Under Bench Lighting
- Custom Door Design

Proud Supporters of:

The last stage of the design process is selecting final finishes. We specialize in custom finishes that seamlessly match your home or make a statement in any environment.

Exterior Finishes

- Shou-Sugi Ban Pine Exterior
- Blending Color Palette

Exterior Finishes

- House-Matched Cedar Shingle Exterior
- Blending Color Palette

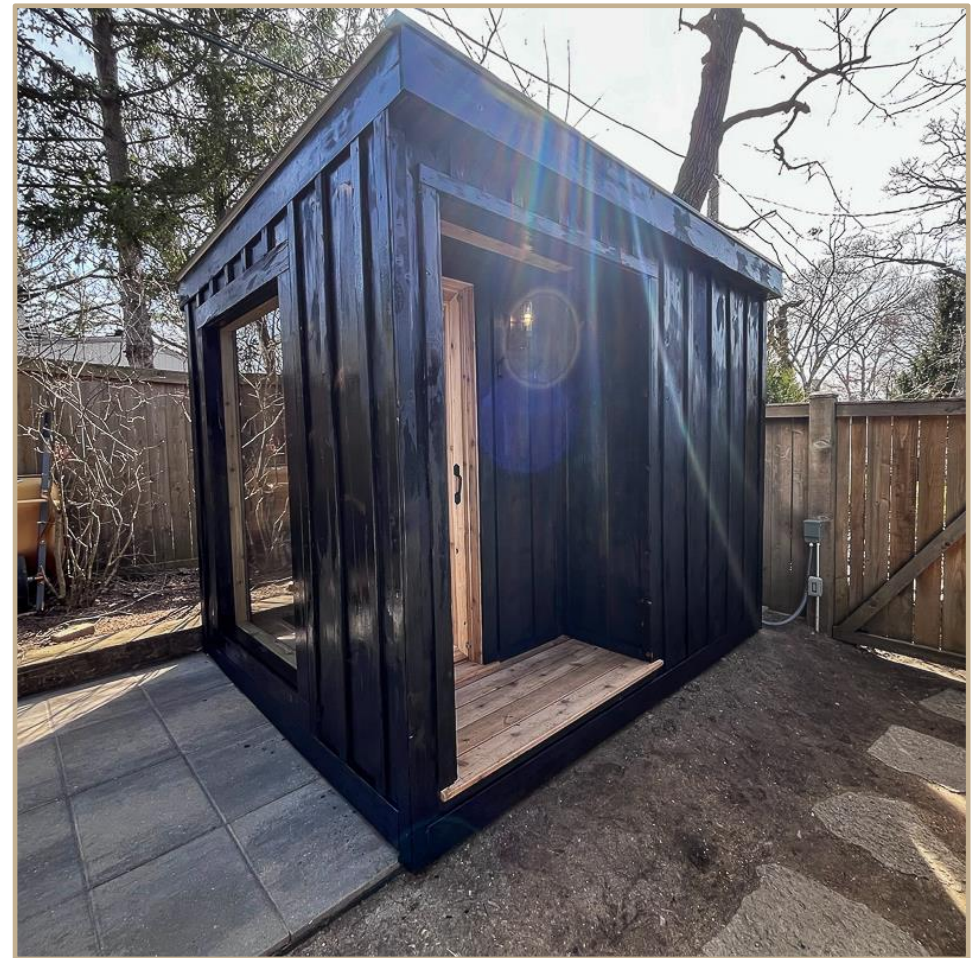

3: Build Phase

Whether indoor or outdoor the site you choose can impact your design choices. As part of our build process, we'll review and recommend the best site and foundational pad for your sauna. In addition, we'll work with you and your electrical contractor to ensure you have the proper power for heating and other considerations like Wi-Fi connectivity and lighting.

Our build phase includes:

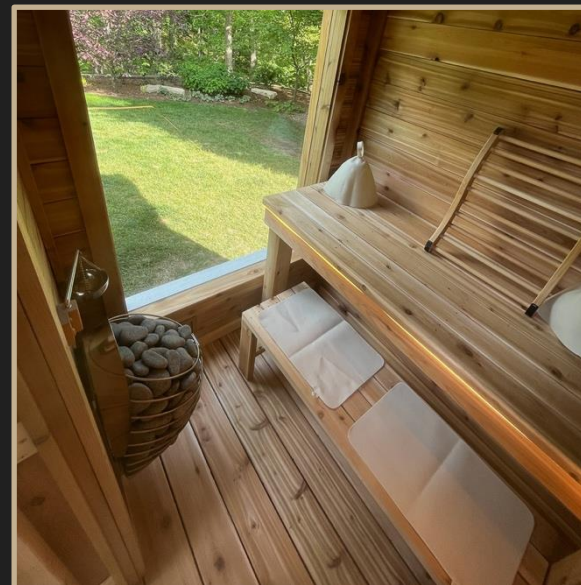

- Site preparation & foundation
- Permit coordination
- Framing
- Insulation and wall construction
- Window & door installation
- Roofing
- Final finishes

Custom Box Shed & Porch on 4" Slate Paver Foundation
